DOG-E-MINDER

> **Get two for:** \$19.95 at www.dogeminder.com.

With just the push of a button, this device records when your dog was last walked, fed and received medicine. When you perform any of these activities, simply hold down the corresponding button for three seconds and the current date and time is saved. The slender and lightweight Dog-e-Minder also acts as a dog identification tag, displaying pet name and owner contact information.

RAPID BLEMISH HEALER

> **Get it for:** \$199.95 at www.hammacher.com.

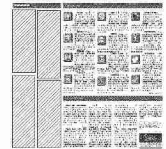

This device uses the same phototherapy treatment developed by dermatologists to help heal skin blemishes 55 percent faster than if left untreated. It administers moderate heat to open clogged pores and uses green and red phototherapy to eliminate the most common acne-causing bacteria. Simply place the device on a blemish for two 10-second intervals (with five seconds in between), and it delivers the phototherapy with the push of a button.

IGO GREEN LAPTOP CHARGER

> **Get it for:** \$99.95 at www.brookstone.com.

Power almost any laptop and handheld device with this ultra-slim wall charger. Simply select the iGo power tip for the device (eight tips are included). The charger also features a computer chip that knows when a device is idle, so it will stop sipping wattage when it doesn't need it and reduce wasted standby power by 85 percent.

DYSON AIR MULTIPLIER FAN

> **Get it for:** \$299.99 at www.dyson.com.

This bladeless 10-inch table fan uses Air Multiplier technology. Up to 5.28 gallons of air per second is drawn in by an energy-efficient, brushless motor. With its airfoil-shaped ramp (like a cross-section through an airplane wing), airflow is amplified 15 times. This creates a smooth, powerful airflow with no need for fast-spinning blades.
